Neil Reddy : Taste See before purchasing it in order to gage whether or not it would be worth my time, and all praised Taste See:

The book and poems start off in the erotic and then delve into the deeper mind. Reddy is a poet and writer that needs and deserves more recognition than he's currently receiving.

Gear up, readers! Neil S. Reddy is launching his latest book with Red Ferret Press, a chapbook of erotic poetry titled Taste See. This small collection of work takes a look at all corners of relationships. From the first hot encounters to the struggles of loss and recovery. Readers will be met with a real and indepth look at the timid explosions that can happen between two connected lovers. Taste See puts readers in the moment. Leaves them stuck there and then pushes them through with each poem. It's a chapbook with a lot of rocks and a lot of erotic touches.

About the Author Neil S. Reddy has been slumped over a typewriter for so long that he has been recategorised as an angle-poised lamp and is often assailed by strangers trying to turn him off. Do not pity him. He is a foul mouthed man and is well able to defend himself - he once reduced a giraffe to tears with a lingering sneer. He should never be approached during the hours of darkness without a beverage. He is an outspoken opponent of everything ignorant, ugly, stupid or overpriced. He lives quietly with his family in the U.K but only because they keep him heavily sedated in a cupboard with a lock; that will be forever England...until it sinks into the sea. He has a beard that is older than many people and contains more wildlife than many zoos. He has an irrational fear of soup. He feels nothing but contempt for hamsters. He is not to be trusted. He is troubled, testy and weird to the bone. He also writes stories.
